PROFESSIONAL OVERVIEW

Detail-oriented and highly organized PMP-certified project manager with 5+ years of experience leading cross-functional projects from intake and planning through execution and launch. Skilled in managing concurrent initiatives, timelines, dependencies, resources, stakeholder communication, and risk escalation across product, marketing, creative, and engineering teams. Known for building practical workflows and reporting systems that bring structure to fast-moving operations.

WORK EXPERIENCE

Product Manager | SUBSCRIBE, New York OCT 2025 – MAY 2026

- Served as the internal Asana expert and built a company-wide program management system from scratch in Asana by replacing 100+ unstructured boards with a structured intake process and clear milestone, dependency, and status-reporting mechanisms. Ensured adoption across 10+ cross-functional teams including product, marketing, engineering, sales, and leadership.
- Delivered a custom client feature that was stalled for 3 years within 1 month by re-scoping requirements, coordinating technical execution with 2 development teams, and negotiating competing priorities with leadership.
- Implemented project management best practices including standardized kickoffs, retrospectives, and gate presentations, creating 3 reusable templates that improved cross-functional communication and stakeholder alignment.

Senior Project Manager | Wide Eye, New York NOV 2024 – OCT 2025

- Led cross-functional creative teams including designers, developers, content strategists, and copywriters to deliver \$2.6M+ in custom brand and web projects for 10+ clients, owning project roadmaps, budgets, and resource allocation from kickoff through launch.
- Partnered closely with content strategists to develop and deliver content playbooks, governance frameworks, and editorial workflows that guided clients on publishing high-quality, on-brand content post-launch.
- Owned day-to-day project operations and resource planning in Asana, Notion, and Airtable, delivering 90% of projects on time and increasing daily reporting efficiency by 50%.
- Created new frameworks and templates in Google Workspace to compile and organize stakeholder feedback, translating ambiguous requests into clear requirements that accelerated approval cycles by at least 1 iteration.
- Oversaw quality assurance throughout the website development lifecycle, establishing QA standards and managing content workflows through review, approval, and publication.
- Managed external vendor relationships and negotiation to keep work on budget and 100% within quality standards.

Senior Project Manager | Studio Simpatico, New York NOV 2023 – NOV 2024

- Managed creative operations for 7+ custom web development and branding projects and 20 retainer clients using Linear and Basecamp.
- Enforced SEO best practices across all web builds, ensuring metadata, alt text, and semantic heading structures were implemented correctly before launch to support search performance and accessibility.

Mingwei Ma

- Researched and led the migration of project management tools from Basecamp to Linear, documenting workflows in Confluence and supporting team adoption, improving project efficiency by 25%.
- Facilitated product design sprints and discovery workshops, serving as the main point of contact for clients and delivering developer-ready requirements to the team which resulted in accelerating the start of development by 2 weeks on average.
- Led a multilingual web migration of thousands of custom post types from Drupal to WordPress, overseeing content strategy, information architecture, and CMS governance to launch an accessible platform supporting dynamic storytelling.

Project Manager | Studio Simpatico, New York

JAN 2022 – NOV 2023

- Managed 3 custom web development projects concurrently while supporting 25+ retainer clients, ensuring timely delivery and client satisfaction.
- Converted 7+ project-based clients into retainer relationships that drove long-term studio growth
- Performed QA, CMS training, content population and migration tasks, and DNS migrations to support successful website launches.
- Led design and development daily standups to proactively unblock team members, coordinate resources, and address project risk.

Project Manager / Strategist | Vaudeville Ventures, New York

FEB 2021 – JAN 2022

- Created and updated project plans, sent weekly status reports, and maintained Asana dashboards to track milestones, dependencies, and progress.
- Created a custom digital asset management system in Airtable to reduce deliverable production time by 50%.
- Delivered 5 competitive landscape audits to support discovery and strategy phases.
- Served as primary point of contact when the director of project management was unavailable, fielding client inquiries, triaging issues, and maintaining client satisfaction despite resource gaps.
- Managed 4 external vendors, building trust and resolving conflicts to ensure reliable delivery of project assets.
