SUMMARY

Senior Project Manager with 6+ years leading creative and cross-functional teams at agencies and fintech SaaS. Expertise in designing intake processes, roadmap and backlog prioritization, and resource planning to deliver multimillion-dollar digital and branding projects on time and on budget. Skilled in KPI reporting, risk escalation, and stakeholder alignment across product, marketing, and design. Currently pursuing PMP certification with expected completion by end of Q3.

WORK EXPERIENCE

SUBSCRIBE

Oct 2025 - May 2026

Founding Product Manager | Fintech SaaS

- Built a company-wide program management system from scratch in Asana, replacing 100+ unstructured boards with a structured intake process, tiered access model, and clear tracking/reporting mechanisms adopted across 10+ cross-functional teams including product, marketing, engineering, sales, and leadership.
- Owned the intake process and backlog for new feature launches and product initiatives, defining required fields, acceptance criteria, and submission workflows so incoming requests were validated against roadmap timelines and priorities before reaching engineering teams.
- Proactively flagged risks and managed escalation paths using a P0-P4 incident framework, with clear, timely communication to all stakeholders.
- Led kickoffs, sprint planning, and gate presentations using agile methodologies with leadership to align expectations, provide status and context to executive stakeholders, and ensure successful new product releases.
- Delivered a long-stalled pre-qualification feature by re-scoping requirements, coordinating technical execution, and leading quality assurance through to launch for digital product development.

Wide Eye

Nov 2024 - Oct 2025

Senior Digital Project Manager | Creative Agency

- Served as the operational backbone leading creative project teams to complete \$2.6M+ in custom brand and web projects across 10+ clients, managing budgets and burn reports, and overseeing the full project lifecycle from kickoff through launch.
- Owned day-to-day project operations and resourcing (Asana, Notion, Airtable) for a blended team of designers and engineers, running capacity planning, staffing and workload balancing across concurrent projects, and proactively unblocking teams.
- Compiled and organized stakeholder feedback, translating ambiguous requests into clear, actionable requirements.
- Created templates for project trackers, weekly reports, and scope of work documents to proactively align stakeholders, establish KPIs, identify risks, and reduce budget overages.
- Provided thought leadership on process improvements, building new content management tools and templates in Notion to scale capacity and improve team efficiency by 20%.

Studio Simpatico

Nov 2023 - Nov 2024

Senior Digital Project Manager | Creative Agency

- Managed creative operations for 7+ custom web development and branding projects and 20 retainer clients, leading cross-functional teams from kickoff through launch, managing dependencies, and cultivating client relationships.
- Researched and owned change management of project management tools (from Basecamp to Linear) to increase team velocity and output quality, documenting changes and workflows in Confluence.
- Built intake forms to improve QA and triage processes, separating defects from functional gaps, gathering required information upfront, and tracking issues and dependencies through to resolution.
- Facilitated product design sprints and discovery workshops for digital product development, transforming vague client ideas into developer-ready requirements and establishing repeatable prioritization practices for creative teams.

SKILLS

Project & Program Tools

- Asana
- Jira
- Notion
- Airtable
- Confluence
- MS Office
- Excel

Program & Project Management

- Intake Process Design
- Roadmap & Backlog Prioritization
- Risk Escalation (P0-P4)
- KPI & Status Reporting
- Resource & Capacity Planning
- Change Management
- Budget Management
- Agile Methodologies
- Digital Product Development

Marketing & Creative Operations

- Creative Operations
- Traffic Management
- Marketing Project Management
- Building Creative Team Workflows
- Cross-Functional Collaboration

Documentation

- Writing Functional Specs
- Building Operational Systems
- Acceptance Criteria
- Process Documentation
- SOW Writing

Stakeholder Management

- Discovery Workshops
- Integration Meetings
- Requirements Gathering
- Client Training & Onboarding
- Executive Communication
- Client Relationship Management

EDUCATION

Bachelor of Science, International Trade and Marketing

Dec 2019

Fashion Institute of Technology, SUNY
